SQWIRO SCHOOL MIS

One system for your school, from PP1 to diploma.

Admissions, fees, exams and report cards, timetables and attendance, notices, boarding, transport, the library and the sick bay, with the same app for parents, teachers and students. Built in Kenya for Kenyan schools and colleges.

Pre-primary and primary | Junior and senior school (CBE) | 8-4-4 | Colleges and TVET | Universities

Set up from the national education pack: stages, curricula and grading schemes. Terms for schools, semesters and intakes for colleges.

BY LEVEL

Set up for how your institution actually runs.

School MIS starts from the national education pack. A school runs on terms; a college runs on semesters, units and intakes. The screens say “school” or “college” to match.

PRE-PRIMARY TO JUNIOR SCHOOL

CBE schools

- CBE report cards: levels, core competencies, co-curricular activities and conduct, approved by the head before parents see them
- Assignments, quizzes and CBE projects with evidence
- Schemes of work, lesson plans and records of work from the curriculum; coverage for heads of department; teacher appraisal
- School transport with boarding alerts; clubs, teams and houses; discipline with hearings and appeals

SENIOR SCHOOL AND 8-4-4

Secondary schools

- 8-4-4 report cards with class positions where the school chooses, until the last cohort leaves
- Boarding: rooms and beds, roll calls, and exeats parents ask for in the app
- A student portal for the timetable, results, fees, assignments and quizzes

COLLEGE, TVET, UNIVERSITY

Colleges and universities

- Intakes, online applications, interviews, offers and placement lists
- Unit registration by window; competence-based results (CDACC); exam periods with rooms, seating and invigilation
- Results slips and transcripts with public verify codes; graduation with clearance and certificates
- Sponsors, bursaries and HELB disbursements, with statements to sponsors; alumni with events and giving

For every school and college

- Learner records, guardians with verified links, admissions and leaving certificates
- Fees by head, term or semester billing, payments by M-Pesa (prompt or paybill, through SqwiroPay), bank or cash, suspense for unknown payments, defaulters and statements to the payer
- Timetables built with a generator and published; attendance registers on the web
- Notices in the app and by SMS, WhatsApp and e-mail, with automatic fee, absence and results notices
- Dashboards for the head, the bursar and class teachers, with small groups hidden
- Library, hostel and sick bay, each with its own rules on who may read what

THE SUITE

Everything a school office runs, in one place.

Every part shares one set of learners, guardians, staff and fee accounts, so nothing is typed twice.

Learners and admissions

Learner records, verified guardians, admissions and leaving certificates. Colleges add online applications, interviews and offers.

Fees

Structures by head, one-step billing, payments by M-Pesa (prompt or paybill, through SqwiroPay), bank or cash, suspense, defaulters and statements.

Exams and report cards

Marks, CBE levels and 8-4-4 grades; report cards checked, then approved by the head. Results slips and transcripts for colleges.

Timetable and attendance

Timetables by class, teacher and room; daily and lesson registers on the web.

Notices and dashboards

App, SMS, WhatsApp and e-mail notices with the cost shown first; dashboards for the head, bursar and class teachers.

Campus services

Hostel and exeats, sick bay, library desk, school transport with boarding alerts, activities and discipline.

PARENTS, TEACHERS AND STUDENTS

The same app for parents, teachers and students.

Parents, teachers and students sign in to SQWIRO on the web. The same views are coming to the SQWIRO phone app.

PARENTS

Smart Parent

- Each child's attendance, alerts, timetable and notices
- Report cards once approved
- The fee balance, and paying it
- Absence reports, trip consents and exeat requests

TEACHERS

Smart Teacher

- Today's lessons and the register in a few taps
- Marks and report card comments
- Assignments and quizzes
- Schemes of work and records of work

STUDENTS

Student Portal

- The next class and the timetable
- Results, the fee balance and paying it
- Assignments and quizzes
- College students: unit registration and transcripts

Colleges and universities have no parent app, because their learners are adults; sponsors receive fee statements by e-mail.

FEES

Bill once, see who has paid, follow up the rest.

Fee structures by head (tuition, meals, boarding, transport, activities), the term or semester billed in one step, and payments by M-Pesa (prompt or paybill, through SqwiroPay), bank or cash. Payments with unknown account numbers wait in suspense until the bursar assigns them.

> **A report card is never held back for fees.** Parents see the fee line, but a child's results are never withheld because of an unpaid balance.

CHILDREN'S DATA

The school controls its learners' data.

- Each school's data is kept in its own database, and the school decides who on its staff sees what
- Verified guardians see what the school holds about their child
- The sick bay, discipline and counselling notes each have their own rules on who may read them
- Dashboards hide groups too small to keep a child anonymous

A DAY AT THE END OF TERM

What it looks like at Kilele Jacaranda School, a fictional school from our demo.

1. **The head opens one page:** enrolment, attendance, fees billed against collected, results by level.
2. **A class teacher takes the register in the app;** a guardian has already reported one absence in the app.
3. **The head approves Grade 8 East's report cards;** the guardians see them straight away.
4. **A parent opens the report card and pays the balance in the app,** then asks for the boarder's exeat.
5. **The bursar checks collections and defaulters** and previews next term's bill.
6. **The office sends a notice to Grade 7 parents** by SMS and in the app, with the cost shown first and a delivery report after.

See School MIS on a demo school.

A 15-minute walk-through. Priced per school: tell us about your school and we send a written quote.
